

CARLISLE'S REPORT
IS NOW READYCONGRESS MAY RECEIVE IT
NEXT TUESDAY.

Rumor That the Secretary Will Hold That no New Tariff or Revenue Legislation is Needed—Yesterday's Senate Proceedings—To Settle Contests—Doings at Washington.

Washington, Dec. 6.—Semi-official information is afloat confirming previous statements that Secretary Carlisle, in his forthcoming report, will hold to the proposition that the government is not in need of new revenue or tariff legislation, resources present and prospective being sufficient, in his opinion, to meet requirements. He will point to the fact that the treasury contains \$90,000,000 in excess of the gold reserve, which sum is available for current expenses. He will show that the deficit during the first five months of the current year aggregated only \$17,000,000 and that there is no likelihood that it will exceed \$25,000,000 or \$30,000,000 by the end of next June, completing the twelve month period. Assuming that estimate to be correct, and the inside figure is thought to be amply liberal, the record for three years would be as follows: Fiscal year 1892-93, deficit, \$70,000,000; fiscal year 1893-94, deficit, \$42,000,000; fiscal year 1894-95, deficit, \$25,000,000. On that showing the secretary will predicate the argument that the year 1895-96 should show income to exceed expenditures or so nearly equal that the balance will be insignificant.

It is probable the report will not be sent to congress before Tuesday of next week. Various matters delayed its preparation so that the secretary did not begin writing it till the latter part of last week.

IN THE SENATE.

Free Silver Bills Introduced by Senators Mills and Chandler.

Washington, Dec. 6.—Senator Mills introduced in the Senate yesterday a bill for the coinage of silver in the treasury, and Senator Chandler one for the coinage of silver at the ratio of 15 1/2 to 1, the bill to become operative when England, Germany and France pass similar laws.

Petitions from Florida for the recognition of Cuba and from the legislature of Montana against further issuance of bonds were presented.

Senator Gallinger introduced a resolution declaring it to be the sense of the senate that it was unwise and inexpedient to retire the greenbacks.

Senator Call then addressed the senate in advocacy of his resolution for the recognition of the belligerency of Cuban insurgents and for strict neutrality by the United States in the war.

Then at 1:20 the Senate went into executive session, and at 1:35 p. m. adjourned until Monday. Ex-Senator Ransom as Minister to Mexico was confirmed. A number of bills were introduced. Among them were:

By Senator Mills—Directing the Secretary of the Treasury to have all the silver in the treasury coined into subsidiary coin, and providing that when the revenues of the government shall be insufficient to meet the current expenses of the government, the Secretary shall issue non-interest bearing legal tender notes in amounts sufficient to cover the deficiency and pay out the same in the current expenditures of the government, and also that when the gold reserve in the treasury shall be in excess of \$100,000,000 and legal tender notes are presented for redemption in coin, they shall be redeemed in either gold or silver coin, at the discretion of the Secretary. The bill also provides that when the reserve shall fall below \$100,000,000 the Secretary shall redeem the notes in silver. It closes with a declaration for the maintenance of the parity of the two metals and a provision for the repeal of all laws authorizing the issuance of interest-bearing bonds.

By Senator Call—To prevent the control of elections by corporations engaged in inter-state commerce; also a bill requiring the railroad companies to pay employees injured in the discharge of duty their salaries while disabled, and, in case of death, to continue to pay the salary to their widows during their natural lives.

By Senator Sherman (by request)—To provide for the reorganization of the line of the army, so as to consist of three regiments of field artillery, twelve regiments of cavalry and eighteen regiments of infantry. The bill follows the same general lines as Representative Outwater's bill of the last Congress, and is devoted especially to the artillery service.

TO SETTLE CONTENTS.

Plan for Forming Two Election Committees Considered.

Washington, Dec. 6.—Speaker Reed is considering a plan to divide the work on contested election cases by forming two election committees in this house. This plan, if adopted, would greatly facilitate the work of disposing of the contests before the house and would give the contestants who may be found to be entitled to seats for which others now hold certificates their rights sooner than they might obtain them otherwise. There are thirty-two contests on hand and they will furnish much work for one committee to grapple with. The business of this committee corresponds largely to that of a court, as it hears all

the evidence in every case and then votes upon it and reports to the house.

The Senate Organization.

Washington, Dec. 6.—It is rumored that the Democratic leaders are prepared to accept the situation and do nothing to impede the transfer of the control of committees in the senate to Republican hands. Senator Gorman said after the caucus yesterday that Democrats recognized the fact that Republicans were in a plurality in the senate, and should be permitted to organize it on Republican lines if they desired. It is understood that Jones and Stewart, and probably Peffer, among the Populists, will vote with Republicans on all question of reorganization.

The Republican Senatorial caucus appointed a committee to proceed at once to arrange the committees on Republican lines.

May Be Settled by Supreme Court.

Washington, Dec. 6.—Although there was talk before congress met that southern republicans might try to bring about congressional action on the state constitutions of South Carolina and Mississippi, which they claim are designed to disfranchise their party, there does not seem to be much likelihood that any effective step in that direction will be taken. Some of the new members have talked with the house veterans on the subject and have become convinced that there is nothing this congress can do, and that the only practical measure would be to bring the question involved into the Supreme court.

Armenian Delegation at Washington.

Washington, Dec. 6.—Many senators and members of the house were interviewed yesterday by a delegation of Armenian citizens from Worcester and Boston, who are urging congress to take every possible step to prevent the continuation of outrages on Armenians in Turkey. Today Representative Walker of Worcester will introduce a resolution in the house calling upon the president to use every means in his power to protect all American citizens in Turkey, and to leave undone nothing permissible under the usages of international law to check and discourage the continuance of outrages upon Armenians under Turkish jurisdiction.

Working for San Francisco.

Washington, Dec. 6.—Congressman Bowers, of California, was engaged yesterday in introducing Mayor Rader and Editor Osborne, of the Los Angeles Times, to the congressional members of the Republican national committee. They are the advance guard of the California committee appointed to secure the next national convention at San Francisco. They made a strong plea for the convention, and claim to have between fifteen and twenty promises, and say San Francisco is the second choice of other members.

Chief Justice Fuller Will Not Resign.

Washington, Dec. 6.—A report was published yesterday that Chief Justice Fuller of the Supreme Court of the United States would resign and take the position of general counsel of the proposed new railroad combination composed of all the lines operating between New York and Chicago and St. Louis at a salary of \$50,000 a year. An inquiry at the residence of the Chief Justice as to the authenticity of the report met the response that the story was absolutely untrue and without any foundation whatever.

Texas Wants Wool Duties.

Washington, Dec. 6.—The National Association of Wool Growers met behind closed doors yesterday in order to adjust privately some differences within the association over the memorial to Congress which it was decided to draft. The delegates from Texas and New Mexico protested to the association that the McKinley tariff schedules worked disadvantage to their grade of wool, and urged higher duties on such wools than the McKinley rates.

Col. Morrison Out of Danger.

Washington, Dec. 6.—Chairman Morrison of the Interstate Commerce Commission, who has been confined to his apartments at Willard's Hotel for several days, is reported somewhat improved and probably out of danger.

President Cleveland on a Hunting Trip.

Washington, Dec. 6.—The president left Washington last night on the light-house tender Maple on a hunting trip through the North Carolina sounds.

WILL ARBITRATE.

President Cleveland to Settle Differences Between Italy and Brazil.

Rio Janeiro, Dec. 6.—The Italian minister to Brazil and the minister of foreign affairs of the republic have signed a draft of a treaty, submitting the claims of Italy against Brazil to arbitration by the president of the United States. The treaty will probably be sanctioned by the governments of both countries. The Italian claims against Brazil arise from alleged outrages upon Italian subjects during the late revolution. The government has decided adversely in regard to the views presented by France as the basis of arbitration to the dispute over the territory of Amana.

Dixon and Erbe Fight a Draw.

New York, Dec. 6.—The ten-round bout last night between George Dixon and Frank Erbe was declared a draw at the end of the tenth round.

POWERS WILL STICK TO THE AGREEMENT

GUARD SHIPS QUESTION TO BE PUSHED.

Embassies at Constantinople Have Received Instructions—Said Pasha Afraid of the Sultan's Anger—Rumors About Russia's Black Sea Fleet—American Missionaries Safe

Constantinople, Dec. 6.—The embassies have received instructions from their respective governments that the guard ships question must be pushed home and that it is impossible for the powers to retire from the position which they have assumed.

Rome, Dec. 6.—A dispatch received here from Constantinople states that Said Pasha, the president of the Turkish council of state and formerly grand vizier, has taken refuge in the British embassy at Constantinople, believing himself not only to be in danger of arrest, but fearing for his life.

London, Dec. 6.—Referring to the sensational statement of the Cologne Gazette regarding the assembling of a Russian squadron off Sebastopol, it is semi-officially stated here that for years past the Russian Black Sea fleet has been under orders to be prepared for active service at any moment. Therefore, it is added, there is nothing new in the situation. Moreover, it is pointed out, a full understanding has been established between the powers in regard to the situation in Turkey and no apprehension exists of any one power taking independent action.

Constantinople, Dec. 6.—Seeing the meshes of the European net drawing closer and closer around him every day, Abdul Hamid is described as being frantic with impotent rage and likely to wreak vengeance upon any or all of his ministers if he can only muster up courage enough to do so.

United States Minister Alexander W. Terrell has received a note from the porte to the effect that new and more rigorous orders have been sent to the Turkish officials in the disturbed districts to take every precaution necessary to protect all foreigners and their property and assuring him of the safety of American missionaries at Casarsa, where a "disturbance" was recently reported.

A dispatch received here from Marash says that the American missionaries there—Rev. and Mrs. Lucius O. Lee, Miss Harriet A. Lovell, Mrs. Etta D. Marden, and Miss Meda Hess—are safe and confirms the story that the mission buildings were attacked by the Turkish troops.

LIVE STOCK MEN MEET.

Three Days' Session of Cattle Men Commences at Chicago.

Chicago, Dec. 6.—The executive committee of the National Live Stock Exchange, which will be in convention in Chicago for the next three days, met in the committee-room of the secretary's office at the Stockyards Exchange yesterday.

The matter of repealing the tax on oleomargarine, the favoring of the ownership of the Nicaragua canal by the United States, the question of foreign embargoes and the fact that congress has been asked to take some action to lessen the embargoes against American meats, and the question of inspection at all markets were brought up and referred to the national convention for final action. The committee recommended that a memorial be prepared requesting the government to adopt all gold at face value and pay charges thereon, but it was finally decided after some discussion that the discussion had no right in the convention and it was eliminated from the matters that the convention will discuss. The report of Treasurer Doud was read. It showed a balance on hand of \$1,140.50, and it was ordered filed. The committee then adjourned until 10 o'clock today.

A CUBAN VICTORY.

Three Hours of Desperate Fighting—Many Officers Killed.

Key West, Fla., Dec. 4.—According to advices which reach here from Havana, the Cubans have once more won a notable victory over the Spaniards. The battle was fought between Camaguey and Las Villas. Gens. Gomez and Sanchez, with 3,000 insurgents, encountered Gens. Suarez, Valdez and Garriet, commanding 2,500 Spaniards. Three hours of desperate fighting was waged, the Spaniards retiring with a loss of 200 killed and 300 wounded. Among the killed were several officers. The insurgents' loss was about half that of the Spaniards.

It is asserted in Havana that the report that Gomez and Maceo were routed was ordered cabled to the United States by Campos, to prevent, if possible, the recognition of the insurgents by congress.

Report on Spooford Case.

Washington, Dec. 6.—The report of the treasury auditor on the shortages in the accounts of Mr. Spooford, the librarian of congress, has been completed and delivered to the President. When questioned as to whether the report disclosed any wrongdoing on the part of Mr. Spooford beyond carelessness and an extremely loose system of keeping accounts, the treasury officials declined to answer, saying that the matter was entirely in the hands of the President.

MINERS AND OWNERS PART AS FRIENDS

COAL MINERS AND OPERATORS FINALLY AGREE.

Wages are to be Paid Semi-Weekly—Company Stores to be Entirely Done Away With—American Federation of Labor Meets Next Monday New York Strikers are Confident.

Pittsburg, Pa., Dec. 6.—The joint convention of coal operators and miners, which has been in session three days, adjourned last night after coming to an agreement regarding wages for next year. From Jan. 1 to March 31 the mining rate will be 64 cents per ton of 20,000 pounds, and for the remainder of the year it will be 70 cents. More important than a rate agreement was a compact made by the miners in return for one entered into by the operators. The miners agreed to abandon the strike method of obtaining better wages and the operators decided to get rid of every "company" store in the district. No operator, superintendent or clerk will be allowed to be interested in stores. The miners are to be paid semi-weekly in cash. Their coal is to be given full weight, and all tips shall have check weighmen and uniform screens. If the New York and Cleveland Gas Coal company does not pay the district price the miners agree to work for the same rates as paid by this company, no matter how low they may be. This was done to protect the union operators from "cut-throat" competitors, and is fighting fire with fire. The effect outside will be to advance mining rates in Ohio, Indiana and Illinois.

TO TRY A NEW PLAN.

American Federation of Labor to Meet at New York Monday.

Springfield, Ill., Dec. 6.—The American Federation of Labor will hold its annual convention in New York, commencing next Monday, the membership being from South America, Canada, Mexico and the United States. There will probably be 400 delegates in the convention. The Illinois State Federation will be represented by Mr. Joseph Ferris, of this city, who left for Chicago last night. The Illinois Federation has a membership of about 140,000. Among the more important questions that will come up before the convention will be measures calculated to open more opportunities for labor, rather than to regulate the supply. The Illinois Federation, in its last annual session at Peoria, instructed Representative Ferris to use his influence and power to have the national body take cognizance of the matter. The State Federation argues that while there are three men for two positions, the condition of the masses can only be improved when there are two men for three positions. Experience demonstrates that the army of unemployed stands in the way of the successful working of this matter, who, from force of necessity, take the place of strikers. The policy of the Illinois Federation that will be urged by Representative Ferris will be the adoption of a plank in the national platform, making it optional with each county to fix and determine by majority vote the class or classes of property upon which taxes for public revenue shall be levied.

New York Strikers Confident.

New York, Dec. 6.—The demand for a recognition of the union and a uniform scale of wages by the striking housemiths is being vigorously pushed. Hostilities waged ten days ago against the Iron League in an endeavor to secure that result are renewed with new vigor on the part of the strike leaders. Clarendon hall, the headquarters of the strikers, was besieged last night with an army of over 600 of the striking housemiths, who pledged themselves to President Lary to stand by him in the present fight.

CAVALRY AFTER INDIANS.

Detachment of United States Troops Pursuing Murderers.

Deming, N. M., Dec. 6.—Acting under orders from the department command of Denver, a troop of cavalry left Fort Bayard on a forced march Wednesday night for the scene of the reported murder of a man and woman near Solomonville, Ariz., by renegade Indians from San Carlos reservation, where soldiers will be joined by a detachment from Fort Grant and the murderers pursued.

Solomonville, Ariz., Dec. 6.—Sheriff Wright and a posse of eighteen men were hot on the trail of the Indians who murdered Merrill and daughter near Ash Springs Tuesday evening. The trail was of two Indians on horseback and four on foot. They were going south in the direction of Stein's Pass, N. M.

Bank of England Breaks Its Record.

London, Dec. 6.—The stock markets were idle yesterday, but with a fairly steady tone, except for Americans, which closed at the worst. Fears are felt here of a premium on gold in America are long, and a protective tariff is also dreaded, as tending to cripple the revival in trade already commenced. Consols keep steady, the glut of money counteracting the influence of politics. The coin and bullion in the Bank of England increased this week £17,333,000 (\$86,655,000), the highest figure ever recorded.

LORD SALISBURY'S NOTE.

Answer of the British Premier Expected Today.

Washington, Dec. 6.—Lord Salisbury's reply to Secretary Olney's note concerning the Venezuelan dispute is expected at the British embassy here today. The messenger of the embassy went to New York yesterday to receive it from the steward of the steamer Britannic. There is no official information here as to the contents of the reply. In diplomatic circles no doubt is entertained that the British answer follows the lines laid down in the first statement, made in 1844, as to the British policy. In substance, this is that arbitration will be cheerfully accepted for the territory outside of the Schomburg line, but within that line no arbitration will be acceptable, as it is considered British soil.

It seems to be the impression that as soon as this message is received Mr. Cleveland will send all the papers in the question to Congress. But if the reply is as indicated it is probable Mr. Cleveland will hold it for additional correspondence and a new message to Congress. The impression obtains that Lord Salisbury's note does not flatly refuse to arbitrate, but that it puts forward a series of alleged facts and then asks this government if upon that proposition it can see anything to arbitrate. There are those who believe Great Britain can very well claim that the Monroe doctrine and the paragraph concerning it contained in the president's message do not apply in the present question. This view of the case is taken by a number of Congressmen. Still there is a strong feeling that the Monroe doctrine should be upheld.

Fitzsimmons and Maher Matched.

New York, Dec. 6.—John J. Quinn, manager of Peter Maher, met Dan Stuart yesterday and agreed to a fight between Maher and Fitzsimmons. Quinn heard Stuart's proposition, which was for a fight with Fitzsimmons for \$10,000 and the championship belt, to be held near El Paso, Texas. Quinn assented to it and called for articles of agreement. The articles were not signed, because it would be an infraction of the law. Quinn will go out of the state to sign them, and Stuart will take them to Texas for Fitzsimmons' signature. It is proposed to pull the fight off in Mexico, just across the Rio Grande from El Paso, Texas. It is planned to erect here a tent capable of affording seats for 30,000 persons. Fitzsimmons and Maher have met before in the prize ring. They fought at New Orleans March 2, 1892, and Maher was vanquished in twelve rounds. Maher was knocked out by Joe Goddard Dec 3, 1892, in three rounds, fought in the Coney Island Athletic club's arena.

Wants No Trouble with America.

Berlin, Dec. 6.—Germany's anxiety to secure sole control of Samoa may stimulate her desire to avoid a tariff war with America. The tone of the more responsible newspapers with reference to the president's complaint of German restriction on American food products and American insurance companies is significantly moderate and conciliatory, and, although the American grievances are regarded as ill founded, there is little disposition to resent the form in which the president utters them.

Noted Jew-Baiter at New York.

New York, Dec. 6.—There arrived from Europe yesterday on the North German-Lloyd steamship Spree a man whose animosity to the Jewish race has prompted him to cross the ocean to argue against them. He is Dr. Herman Ahlwardt, the notorious anti-Semitic leader of the German reichstag and Jew baiter in general. His popularity here may be gauged by the fact there was not a soul at the pier to meet him and little or no interest was manifested in his advent.

Heavy Failure at Chicago.

Chicago, Dec. 6.—Embarrassed by their inability to meet outstanding paper, A. H. Andrews & Co., the largest school supply house in the world, were forced to close their doors yesterday. After confessing judgment in the circuit court for \$25,774 in favor of the Globe national bank, the company made an assignment to Frederick A. Helbrook, the secretary. The assets were given at between \$500,000 and \$600,000 and the liabilities between \$350,000 and \$400,000.

Grave Robber's Startling Confession.

Burlington, Iowa, Dec. 6.—John Cummings, a pauper of Vinton, having resided there for twenty-five years, yesterday confessed to a grave robbery which occurred there twenty-two years ago. He implicates five highly respected citizens as confederates. More startling developments are expected. The body taken was that of a young lady, a relative of J. R. Christie, one of the foremost citizens of Marion.

F. C. Ferris and His Son Run Down by Car.

Just as G. C. Ferris and his son George turned into Fourth avenue, at 4:30 yesterday afternoon, a "bob" loaded with boys, crashed into the cutter. Both the "bob" and the cutter were broken and Mr. Ferris was thrown out on his head, and quite painfully bruised, while his son's ankle was also injured. The boys camped in all directions, so it is not thought that any of them were hurt.

CLEM ELLISON MISQUOTED

A Chicago Reporter Puts Strange Words Into His Mouth.

Clem Ellison, the amateur billiard champion of Illinois was in town yesterday. Mr. Ellison now runs a sleeping car, and was renewing acquaintances in his old home. Yesterday's Chicago Tribune quoted him as seeking a match with Milburn, the man from whom he won the championship and said he said:

"Milburn I hear, has been averaging pretty well lately, and probably thinks because I am on the road four days at a time that I have lost some of my speed. If he is laboring under that impression the quicker he challenges me the better it will suit me, as I am anxious to administer a good beating to him."

"That interview is not correct," he told a Gazette reporter. "I met The Tribune man for about a minute at Chicago, and he enlarged on the facts to suit himself."

POISONED BY A CLOVER HEAD.

Wick Griswold May Lose a Hand From a Peculiar Cause.

Last fall, Wick Griswold, who lives between Darien and Sharon, shelled out a head of clover seed by rubbing it in his hand. In a few moments after the operation his hand began to prickle and smart. The pain increased and in a few moments the hand was swollen to twice its natural size. Remedies were applied but they did no good and a physician was called, and while the swelling has been reduced it is still painful, and ugly ulcers have broken out, and it is feared that it may result in the loss of his arm. The doctor thinks the hand was stung by some poisonous little worm of the centipede order that was concealed in the clover head.

TEAMSTERS TURN COAL DEALERS

The Milton Junction Scheme Seems To Be "Catching."

A number of local teamsters who have had no work during the winter in times gone by, will haul coal until the ice season opens up, and as one of their number expresses it, "they are now in business for themselves." Among those who have been hauling coal from Milton Junction to this city is Henry Kaylor, who says that business is good, for he lands coal in Janesville at \$6.75 a ton and makes a dollar a ton by the operation. He can carry a two-ton load once a day, and he says, he cannot complain while he can make two dollars a day these kind of times.

NEW HIGH SCHOOL NEEDS MORE COAL

ENGINEER THOMAS KING MADE A FEW ESTIMATES.

Present Supply Will Not Last Longer Than Christmas and Running the Engine and Boiler is a Job For Two Men—Some of the Rooms Cannot be Used.

Engineer Thomas King thinks the school board has made a mistake in figuring on the amount of coal that the new high school boilers will consume this winter, and also says that running the boilers, etc., is a job that will keep two men busy.

The heating apparatus in the building is the finest and the largest of its kind in the city, and for this reason it takes an unusually large amount of coal. When seventy-five tons of No. 4 coal was ordered by the school board and placed in the building last summer it was thought that that amount would last through the winter, it being contracted for at \$6.50 a ton. These cold mornings the two boilers which are of the "direct and indirect systems" are started as early as 4:30 o'clock and from that time till night it is necessary to look after them closely.

Takes Two Tons a Day.

They consume on an average of two tons a day and when it is figured in that 50,000 square feet of heating surface it is no wonder that Engineer King and the coal bin are both taxed to their utmost. Engineer King has seen many years of service as an engineer, but says that the present work is too much for one man, as the engine room alone needs his entire attention. If additional help cannot be had he thinks he will have to resign. What is left now of the seventy-five tons will hardly last until Christmas, and at least one hundred and fifty tons of coal he estimates, will still be needed to carry them through the winter.

"When we contracted for the coal" remarked a member of the school board "it was only for the seventy-five tons, and I doubt it very much if we can get more now for the same price."

The building has not been properly heated in all the rooms for some time, and a portion of the work of the scholars had to be abandoned in consequence.

JOHN J. INGALLS EXPLAINING

The Ex-Senator Tells Chicago Reporters His Story

John J. Ingalls is now engaged in "explaining things." The Times-Herald of this morning says:

"John J. Ingalls passed through the city yesterday from Mattoon, where he spoke Wednesday evening. Referring to the dispatch from Topeka about the anger of Kansas for his failure to appear at the meeting of the Milliton Club, Mr. Ingalls said he did not accept the invitation to speak on that occasion, and that the managers did not expect that he would be able to attend. He did not fix the date of the meeting, nor did he telegraph from Janesville, where he spoke Saturday night, that he was snow bound, nor send any other excuse. When the meeting was originally proposed Mr. Ingalls told the promoters that he had appointments on the lecture platform that would occupy him till April, and that he had no time for preparation. Upon representation that his name on the programme would add to the prospects of success, Mr. Ingalls finally agreed that it might be announced that he had been invited and would appear unless prevented by previous engagements.

"So far as Mr. Burton is concerned Mr. Ingalls said to the managers that he hoped he would be invited and that he had no doubt his address would add much to the interest of the occasion.

LOST BOY FOUND AT CHICAGO

Charlie Hummel Goes Through Janesville on His Way Home.

Passengers who were at the Northwestern depot when the Janesville accommodation pulled in from Chicago, were amused to see a man who had a boy tightly wedged into a car seat, with the boy seated on the inside. The lad was Charlie Hummel, of Port Atkinson, who ran away and was suspected of hiding in this city, while the gentleman with him was his father. Young Hummel had been at Chicago, and said he merely wanted a "taste of city life." He seemed perfectly willing to return home.

The Royal Worcester W.C.C. Corsets Received the Highest Award Grand Medal And Diploma From the World's Columbian Exposition, Chicago, 1893.

W. C. C. Corsets receive

highest award, grand medal and diploma from the World's Columbian Exposition, Chicago, 1893, Celebrated for beauty of shape, style, comfort and durability, the Royal Worcester must be right in every way, for it is woman's favorite corset. Famous the world over and carried and sold freely by every leading dealer from Maine to California, with a daily increase in sale almost incredulous. At the present time the makers of Royal Worcester are the largest manufacturers of fine corsets in the world. Cramped for room in their Chicago quarters, the company moved December 1 to the James Walker Building, Market and Adams streets, second floor, while the home plant at Worcester, Mass., moves into its new factory Feb. 6, 1896.

This factory will be a model in its way, a magnificent pile of granite and brick, four stories high, 265 feet in length and 50 feet wide, with a wing 55 feet long. Just double the capacity of the old, and will start with an output of 1,000 dozen corsets a day, high grade corsets being their specialty. To the president, general manager and founder of this company, Mr. D. H. Fanning, is due in large measure its wonderful success. For thirty-five years his head and hand have guided the Royal Worcester on up and upward with a clean record and marvelous growth, gaining steadily even in the face of a wretched panic that made many a strong house tremble in the balance, while others, less able to withstand the shock, tottered and fell, crushed out of existence. Growing daily by woman's favor and the expert judgment and wise comparison of the merchant, the Royal Worcester people have kept ever in mind the one big thought to make the good better and the better best. The unapproachable Royal Worcester W.C.C. is ever a mockery to the limited skill and genius of the imitator. Easy enough to dream success but the way to victory is marked by the merit mile stone. Half the world of women's hearts today are beating against a Royal Worcester.

10 styles of W. C. C. corsets are to be found in our stock, from 50c to \$3.60. We are willing at any time to furnish any special style represented in their catalogue which we have. If you are wearing any particular make corset, and paying \$3 to \$4 for it, look at our line may be the means of saving you from \$1 to \$2 on a single pair. Our No. 550, at \$2.25 for extra stout women, is an excellent style; has extra heavy clasps, curved to fit the body. It is designed for those who require an extra strong corset, having 24 steel. We invite women who are paying fancy prices for corsets to come in and examine the W. C. C. corsets.

LEAF MARKET QUIET AND LITTLE DOING

HOLIDAY DEPRESSION IS SETTING IN EARLY.

No Sales of This Years Crop Have Been Reported This Week and Manufacturers are the Only Purchasers—L. B. Carle and S. B. Heddles the Largest Traders.

The quietness incidental to the holiday season seems to have struck the Janesville leaf market early this year, and but little is being done in the warehouses. L. B. Carle and S. B. Heddles, the largest buyers at present, the former having purchased liberally of the farmers and the latter has bought about one hundred cases of '94. S. B. Heddles, George H. Rumrill, Joseph Grundy and Soverhill and Porter have purchased a few crops.

"Aside from the usual retail trade to cigar manufacturers there have been no sales from the warehouses.

"There are no sales of '95 reported in this vicinity of late and we doubt if much interest is taken in it before another spell of casing weather, or rather until the tobacco is stripped, affording a good opportunity for thorough examination.

"In old goods Andrew Johnson reports the sale of 8 cases '94 at 3¢ cents and Eric Johnson sold 19 cases '94 at 4¢ and 1 cent.

Unequaled in the History of Medicine. Honesty, Excellence, Faithfulness Fully Rewarded.

[SPECIAL TO OUR LADY READERS.]

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by Lydia E. Pinkham's Vegetable Compound and never in the history of medicine.

from the Gulf to the St. Lawrence, come the glad tidings of woman's suffering relieved by it; and thousands upon thousands of letters are pouring in from grateful women, saying that it WILL and does positively cure those painful ailments of women.

It will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure Backache.

It has cured more cases of leucorrhoea by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache. Mrs. Pinkham's Sanative Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All drug stores sell the Pinkham's remedies. The Vegetable Compound in three forms—Liquid, Pills, and Lozenges.

Clergymen's Half Fare Permits.

For the information of clergymen and other religious officers entitled to travel on half fare permits, a synopsis of ruling for 1896 is herewith given: The application classifies (a) (b) (c) (d), showing those persons entitled to annual and those to only trip permits. The applicant fills in opposite his class; obtains the indorsement of local agent and then forwards application with fifty cents in check, draft, postal or delivers order to B. D. Caldwell, chairman Western Passenger Association, Chicago, Ill.

The annual permit covers 37 miles of railway in western states and is a valuable bit of cardboard. The trip permit covers only between certain points and is limited to 30 days. The signature of one agent at a point where there are several railways will suffice for all. Blanks can be obtained at the depot now and may be fully endorsed and sent in at once for permits for 1896.

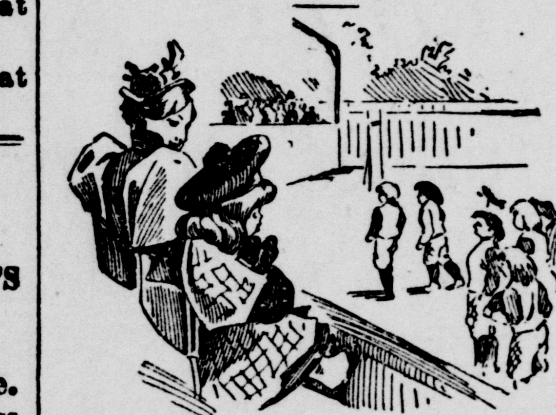

Read the Death Roll

Which the bill of mortality of any large city may be fully designated, and you will find that renal and vesical maladies, that is to say, those that affect the kidneys and bladder, have a remarkable prominence—we had almost said preponderance. Bright's disease and diabetes in the chronic state are rarely cured, and gravel, catarrh, of the bladder and enuresis, stay many. Yet at the outset, when the trouble merely amounts to irritability of the organs involved, the danger may be nullified by that stomachic bitter, which imparts the requisite amount of tone to the organs, without over-exciting them, and the use of which is convenient, and involves no elaborate preparation. Dyspepsia, a usual concomitant of renal complaints, and debility, which they invariably produce, are remedied by it. So also are constipation, malarial, rheumatic and nervous ailments.

THIS DAY IN HISTORY

1421—Henry VI of England born; killed in Tower 1471.
 1492—Columbus discovered Haiti.
 1540—The diet at Worms convened.
 1693—Henry Jenkins died in England at the age of 140; claimed to be 169.
 1732—Warren Hastings, first governor general of British India and defendant in the famous trial, born in Worcestershire; died 1818.
 1787—Marquis de Lafayette (Gilbert de Motier), the distinguished ally of the American Revolutionary army, born in Auvergne, France; died 1834.
 1805—Robert Houdin (Jean Eugene), the famous French conjurer, born at Blois; died 1871. Robert Houdin was a well educated man and became a successful watchmaker and afterward a manufacturer of mechanical toys. His tastes led him to adopt mechanical employments. At the age of 40 he began to exhibit in public his remarkable skill as a juggler.
 1895—Field Marshal Sir Richard Dacres, a distinguished soldier in the Crimea, died; born 1779.
 1892—The ship Jason wrecked off Highland Light, Mass.; 25 seamen drowned.

STILL THEY FIGHT.

November is past and gone, and Cuba keeps up her fight against Spain. General Campos declared all last summer that November was to see the rebels whipped and suppliant. Instead, they finished the month more defiant than ever.

Spain certainly cannot complain of the United States' action in the matter. If only a third of the provinces of Spain were to declare that they had seceded and this country should recognize them as belligerents in less time than three months, the proceeding would be an exact parallel to Spain's action when the Southern Confederacy was proclaimed. Cuba is Spain's distant colony and our neighbor, and yet we have not imitated the unfriendly Spanish example under far greater provocation.

A MESSAGE FROM REED.

Very little importance attaches to the president's message compared to the significance of a message from Speaker Reed. Almost for the first time in the nation's history the speaker is a greater power than the president. If the Maine statesman got out a message telling what ought to be done by congress—which would be equivalent to saying what must and would be done—it would have ten readers to every one which Cleveland's had.

TERRITORIES NO LONGER.

A few years more and there will be no territories save Alaska. Utah will drop out of the list in four or five weeks and Oklahoma and New Mexico will probably leave it before the present congress ends. Arizona, too, expects to be admitted to statehood within the next two years, although she is the smallest of the territories in population and smaller than any except the rotten borough of Nevada, she may be kept in the leading strings awhile longer.

THE OUTLOOK FOR IRON.

The output of iron is not likely to go much beyond the figures now reached. Supply seems to have overtaken demand, and a lull may be expected. A great record has been made, however. Nobody would have predicted six or seven months ago that anything like the recent production would be touched this year.

The inventor of a bicycle suit that will enable a woman to look as graceful standing on her head, or reclining in the middle of the road, as when dressed for an evening entertainment, is sure not only of fame and fortune, but of the undying love of every woman cyclist.

Anthony Hope, the English author, declines to lecture in this country because he hasn't anything to lecture about and doesn't know how to lecture. Others have had the same reasons, but they have lectured all the same.

If his message represents all the hard thinking he did while fishing in Buzzard's Bay, Mr. Cleveland should lose no time in having his thinking apparatus examined by an expert.

There will not be so much democratic kicking over the Red rules in the house this year. The greater portion of those rules were adopted by the democrats of the last house.

It isn't Mr. Cleveland's fault that some people expected a different kind of a message. He never said he had changed his opinions. It was his know-it-all friends.

There is no doubt about the Indiana eagle that tore a dog to strips and almost licked a man, after being crippled by a charge of shot, being a genuine republican bird.

The multiplication of republican candidates for the senate in Kentucky is a good sign. It indicates that Blackburn's successor will be a republican.

Up to date congress has managed to restrain its enthusiasm for the idea of retiring the greenbacks and treasury notes without making any special effort.

Humph! Senator Hill also complains of having been coldly received. The

man who knows when to lecture and when not to lecture, is wise indeed.

If the Sultan of Turkey can succeed in playing Germany against England, he can indefinitely postpone the partition of his empire.

If Senator Hill was paid \$1000 per lecture; somebody was losing about \$900 per lecture; hence the cancellation of all his dates.

There will be four more issues of the Weekly Gazette before Christmas—every Tuesday and Friday night.

As it has a very large circulation in the counties of Rock, Walworth, Green, Jefferson and at all points tributary to Janesville, advertisers who wish to give their holiday specialties the widest publicity should secure space in the columns of the weekly.

EMINENT TESTIMONY

Regarding the New Discovery for Curing Dyspepsia and Indigestion.

Dr. Hartzman, who has made many tests of the new dyspepsia cure, is very enthusiastic in his praise of this excellent preparation. It is not a secret patent medicine, but is composed of pure pepsin, bismuth, fruit salts and vegetable essences, made into pleasant tasting tablets or lozenges and sold by druggists at 50 Cents per package, under the name of Stuart's Dyspepsia Tablets.

Dr. Hartzman states that Stuart's Dyspepsia Tablets cure dyspepsia and weak stomachs, because they possess the peculiar power of digesting whatever wholesome food is taken into the stomach. They do not act on the bowels like cathartics, but act entirely on the food, digesting it thoroughly and quickly, giving the stomach a chance to rest and recover its natural strength, which it invariably will do after a course of Stuart's Dyspepsia Tablets. If your druggist hasn't them in stock ask him to order a small quantity from his wholesaler.

GIVE ROCK A MAN IN THE SENATE

Election to be Held in This County
Next Fall.

SO THE PLAN STANDS NOW,
AT LEAST.

The Apportionment Scheme Likely to be Decided on Before Night as There Has Been Two Sessions of the Committee Today—How Rock County Will Be Divided Under the Plan Now Under Consideration.

Madison, Dec. 3.—As yet the re-apportionment is not settled. As far as the assembly districts are concerned, they appear to be satisfactory, but it is over the senatorial districts that the trouble is being made. There now appears to be a move on foot for a change in the districts for the entire northern part of the state. This was discussed in a short executive meeting which was the only session the committee held this morning and the matter will be decided upon by this evening.

The first senatorial district will consist of Douglas, Burnett, Washburn and Polk counties; the second of Bandfield, Sawyer, Ashland, Washburn and Iron counties and the third of Vilas, Oneida, Oric, Langlade and Forest counties.

Such an arrangement is argued for by Mr. Miles most positively and may go through. This however would mean quite a re-arrangement of the map in the northern part of the state. The proposed changes are all in senatorial districts it being now practically admitted that the assembly districts will be left as at present. The plan now is to so arrange the map that there will be three Lake Superior senate districts, one of which will be and is objected to by some of the southern members. There will be another executive session this afternoon, at which this will be decided and Secretary Turner believes final action will be taken on the bill before night.

The apportionment as it now stands makes Rock the 22nd senatorial district. This is the number of the Appleton district at present, and the Appleton incumbent, William J. Kennedy, is not a "hold over."

The even districts will be the ones to elect senators next fall and Rock, being listed as the 22nd, will have a voice.

Senator Putnam, of Green county, being in the 17th district, holds over. The three assembly districts into which Rock is divided are as follows, with the population:

First—Janesville city, 12,971; Center, 1,176; Janesville, 1,193; Magnolia, 1,135; total, 16,475.
Second—Bradford, 903; Fulton, 1,419; Harmony, 1,184; Johnston, 1,027; La Prairie, 945; Lima, 1,064; Milton, 2,459; Rock, 975; Porter, 1,255; Union, 921; Edgerton, 1,072; Evansville, 1,716. Total, 15,847.
Third—Avon, 778; Beloit, 712; Clinton, 1,111; Newark, 1,000; Plymouth, 1,254; Spring Valley, 1,413; Turtle, 1,087; Clinton village, 951; Beloit city, 7,786; total, 16, 092.

ISSUES FOR JURY ARE ALL SETTLED

COURT WILL NOW HEAR THE
BALANCE OF THE CASES.

Verdict For the Defendants in the Turner-Sayre—Merchants & Mechanics Bank Case—Janesville Improvement Company Tangle Comes Next—Other Cases.

With the verdict for the defendant in the case of O. M. Turner against T. E. Sayre and the Merchants & Mechanics Savings bank, the jury cases of this term of the circuit court were finished today. The next matter to come up will be the tangle of cases concerning the Janesville Improvement company, the Victor Manufacturing Company etc.

The jury in the case of Turner against Sayre and the bank was only out ten minutes. The plaintiff, O. M. Turner, is the president of Dane county bank at Stoughton. The testimony in the case showed that Turner and Sayre had some business dealings in the course of which Sayre gave Turner a mortgage on 303 cases of leaf tobacco and some real estate, etc to secure a loan of \$7,500. Previous to this deal, however, Sayre had also borrowed \$3,500 at the Merchants & Mechanics bank.

Mortgage Not Recorded

His mother signed his note at the Merchants & Mechanics' bank, and Mr. Sayre gave the bank a mortgage on the 303 cases of tobacco to secure her. When Turner filed his mortgage on the leaf, he learned that the bank's mortgage had not been filed. Turner therefore claimed that his mortgage took precedence, and the defense combated that theory. The question for the jury was, therefore, to decide which mortgage was to be paid first; whether or not the fact that the Turner mortgage was subsequent to the bank mortgage; and if so, whether the agreement to that effect was omitted by inadvertence or mistake. The jury decided that the Turner mortgage was subsequent, and that the omission of the agreement was a mistake. Therefore, Turner's claim will not be paid, according to this decision, until the Merchants & Mechanics' bank claim has been settled.

Bank Did Not Appear.

The Janesville bank did not appear in the case as a defendant, as their claims were secured by Mrs. Sayre's note.

Fethers, Jeffris & Field and George G. Sutherland appeared for Sayre and Mr. Walt, of Stoughton, for Mr. Turner.

The next case to come up will be the first of the issues of fact for court. It is the action of J. A. Cunningham against the Janesville Improvement company, Hiram Merrill et al., and will bring up the tangle of cases in which the Improvement company, the Victor Manufacturing Co., etc., figure. The case is set for Monday and Fethers, Jeffris & Field appear for the plaintiff, while F. C. Burpee represents Mr. Merrill.

H. W. Rogers et al. was given a judgment for \$59.01 and \$43.83 costs, against H. E. Pattison. The action was the foreclosure of a land contract. Whitehead, Matheson & Smith represented the plaintiff, the defendant not being present.

Kate Fish, of Lake Mills, was granted a divorce from her husband, H. R. Fish, the action being tried at a special term of the Jefferson county circuit court held here.

Frank H. Jones, now of Chicago, was also granted a divorce from his wife Tessie Jones. Dunwiddie & Wheeler appeared for the plaintiff, the defendant not being present.

THE SPRING BROOK SCHOOL PLAN

Committee Now Investigating the Needs of That Locality

The first step towards learning the actual needs of a school house at Spring Brook, were taken today by Supt. D. D. Mayne. A committee will be appointed to canvass that vicinity to find out how many children there are, etc., and a report will soon be made.

The song service was rendered by a quartet composed of Miss Blanche Hyde, Mrs. E. M. Hyzer, G. G. Paris and Will Garbutt. The funeral was in charge of the Knights of Pythias, of which order the doctor was a member. The pall bearers were W. E. Evenson, L. H. Becker, George M. McKey, Victor P. Richardson, Robert M. Bostwick and Dr. W. H. Palmer.

Mrs. Grant had resided in Janesville for forty-five years, and was well and favorably known. Although she has been ill for three months with diabetes, her death was sudden, she having been about the house last night. Two daughters and one son survive her, they being Mrs. Sheffield, Mrs. James Clough and James Grant, all of this city. The funeral will be held from St. Patrick's church at 2 o'clock Sunday afternoon.

DUGAN HIT SLIM IN SELF DEFENSE

THE MANSLAUGHTER CHARGE
IS DISMISSED.

Tramp Who Was Charged With Killing His Partner at "The Willows" Near Beloit Set at Liberty as There Was No Evidence to Convict Him—Court Doings.

Daniel Dugan will not be tried for the alleged killing of Sidney Slim, the tramp, who died as the result of injuries received by being struck on the head with a club by Dugan, during a drunken row at "The Willows," near Beloit, on the night of November 25. The Line City coroner's inquest resulted in Dugan's being held for manslaughter, and his case came before Judge Phelps this morning. Instead of filing an information against Dugan, however, District Attorney Jackson filed his reasons for not filing one, they being that from the testimony heard at the inquest it appeared that Dugan was acting in self defense, and that no testimony other than that secured at the inquest could be had. Judge Phelps thereupon ordered that Dugan be discharged, and Clerk Williams at once notified the sheriff to set him at liberty. W. J. Grier, who had been held as a witness, was also discharged by the court's direction.

Edward Pierce and Patrick Quigley were each assessed a penalty of \$3 and costs by Judge Phelps today for being drunk.

ALL SOULS, The People's Church

We hold there is no escape from the consequences of wrong doing. Sin is its own punishment. The man who does wrong, wrongs himself more than any one else. The soul is debased and brutalized whenever a man consciously indulges in that against which his reason and conscience revolt. God does not damn us, but we damn ourselves. Our own wrong doing is our punishment. If a man sins, the sin is a poison which corrupts his moral nature and degrades his character. But if we do right, the righteous act is itself our adequate blessing and reward. Every right deed, every noble aspiration, every true word gives to our character a reater Godlikeness. There is no sin more sinful than the attempt to evade the just consequences of our sin.

VICTOR E. SOUTHWORTH, Pastor.

The Infant Terrible.
 "Kitty, you must let papa's watch alone."
 "I won't hurt it, papa. I just want to—"
 "Put it down, I tell you!"
 "I ain't hurtin' it. I only want to see what makes it—"
 "If you don't let that watch alone, I shall certainly have to punish you."
 "I ain't—"
 "Will you put it down?"
 "All I want to do with it, is to—"
 "Kitty, do you hear what I say?"
 "Yes, and you'd hear what I say, if you didn't talk so much!" — Golden Days.

Scientific Item.
 "My wife," he remarked, "has made a very important discovery."
 "Indeed," I said, "what is it?"
 "A new substance that is apparently indestructible."

I recalled the fact that his wife had been a professor of natural sciences prior to her marriage and inquired if she had been long at work upon the invention.

"No," he replied, "and it came about quite by accident. She was trying to make a sponge cake." — Chicago Times-Herald.

Trouble Ahead.
 "Not satisfied with the way we showed him up last week," said the Bloody Gulch Ripsorter, "the squint-eyed old pelican who runs the worthless sheet in the garret across the way evinces a disposition once again to get into our hair. We warn him he will have his hands full." — Chicago Tribune.

Financiering.
 Buttons—The count gave me a dollar to tell him truthfully if Miss de Riche was at home.
 The Maid—And did you?
 Buttons—Not much! I told Miss de Riche about it, and she gave me a dollar to tell him she was out.—Bay City Chat.

A Heavy Fall.
 Young Lady—I notice that you limp, lieutenant?
 Impecunious Lieutenant—Yes, I had the misfortune to crush my foot very badly.
 "Did something heavy fall on it?"
 "Yes; I accidentally dropped my pocketbook." — Texas Siftings.

Love's Second Look.
 They clearly were built for each other—
 They remarked this again and again;
 If fate had not brought them together
 What failures their lives would have been.
 But after they'd drifted asunder,
 When love's blissful moments had sped,
 They shuddered to think what a failure
 Their lives would have been had they wed.
 —Kansas City Journal.

It Fits.
 A.—When I see you I always think of the proverb: "To whom God gives an office to him He gives understanding."
 B.—But I have no office!
 A.—Well, don't you see how that fits?
 —Fliegende Blaetter.

The Heir-at-Law.
 Daughter—These English novels are always speaking of an heir-at-law. What does it mean?
 Old Lady—I suppose it's the same way over there as 'tis here. The heir always has to go to law before he can get anything. — N. Y. Weekly.

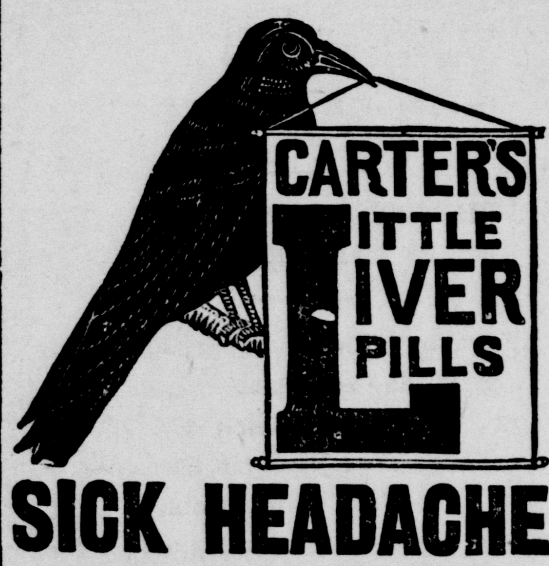

Proof of It.
 Millson—Do you believe that the souls of the departed can communicate with us after death?
 Kilby—Oh! yes. I frequently get letters from friends who have moved to Philadelphia. — N. Y. World.

A Warning.
 Leap year is coming: boys, beware,
 Let not the maidens woo you;
 Before the year is out, take care
 Lest they decide to sue you.

 I want them to play football in."

65 genuine Freize Ulster Storm Coats

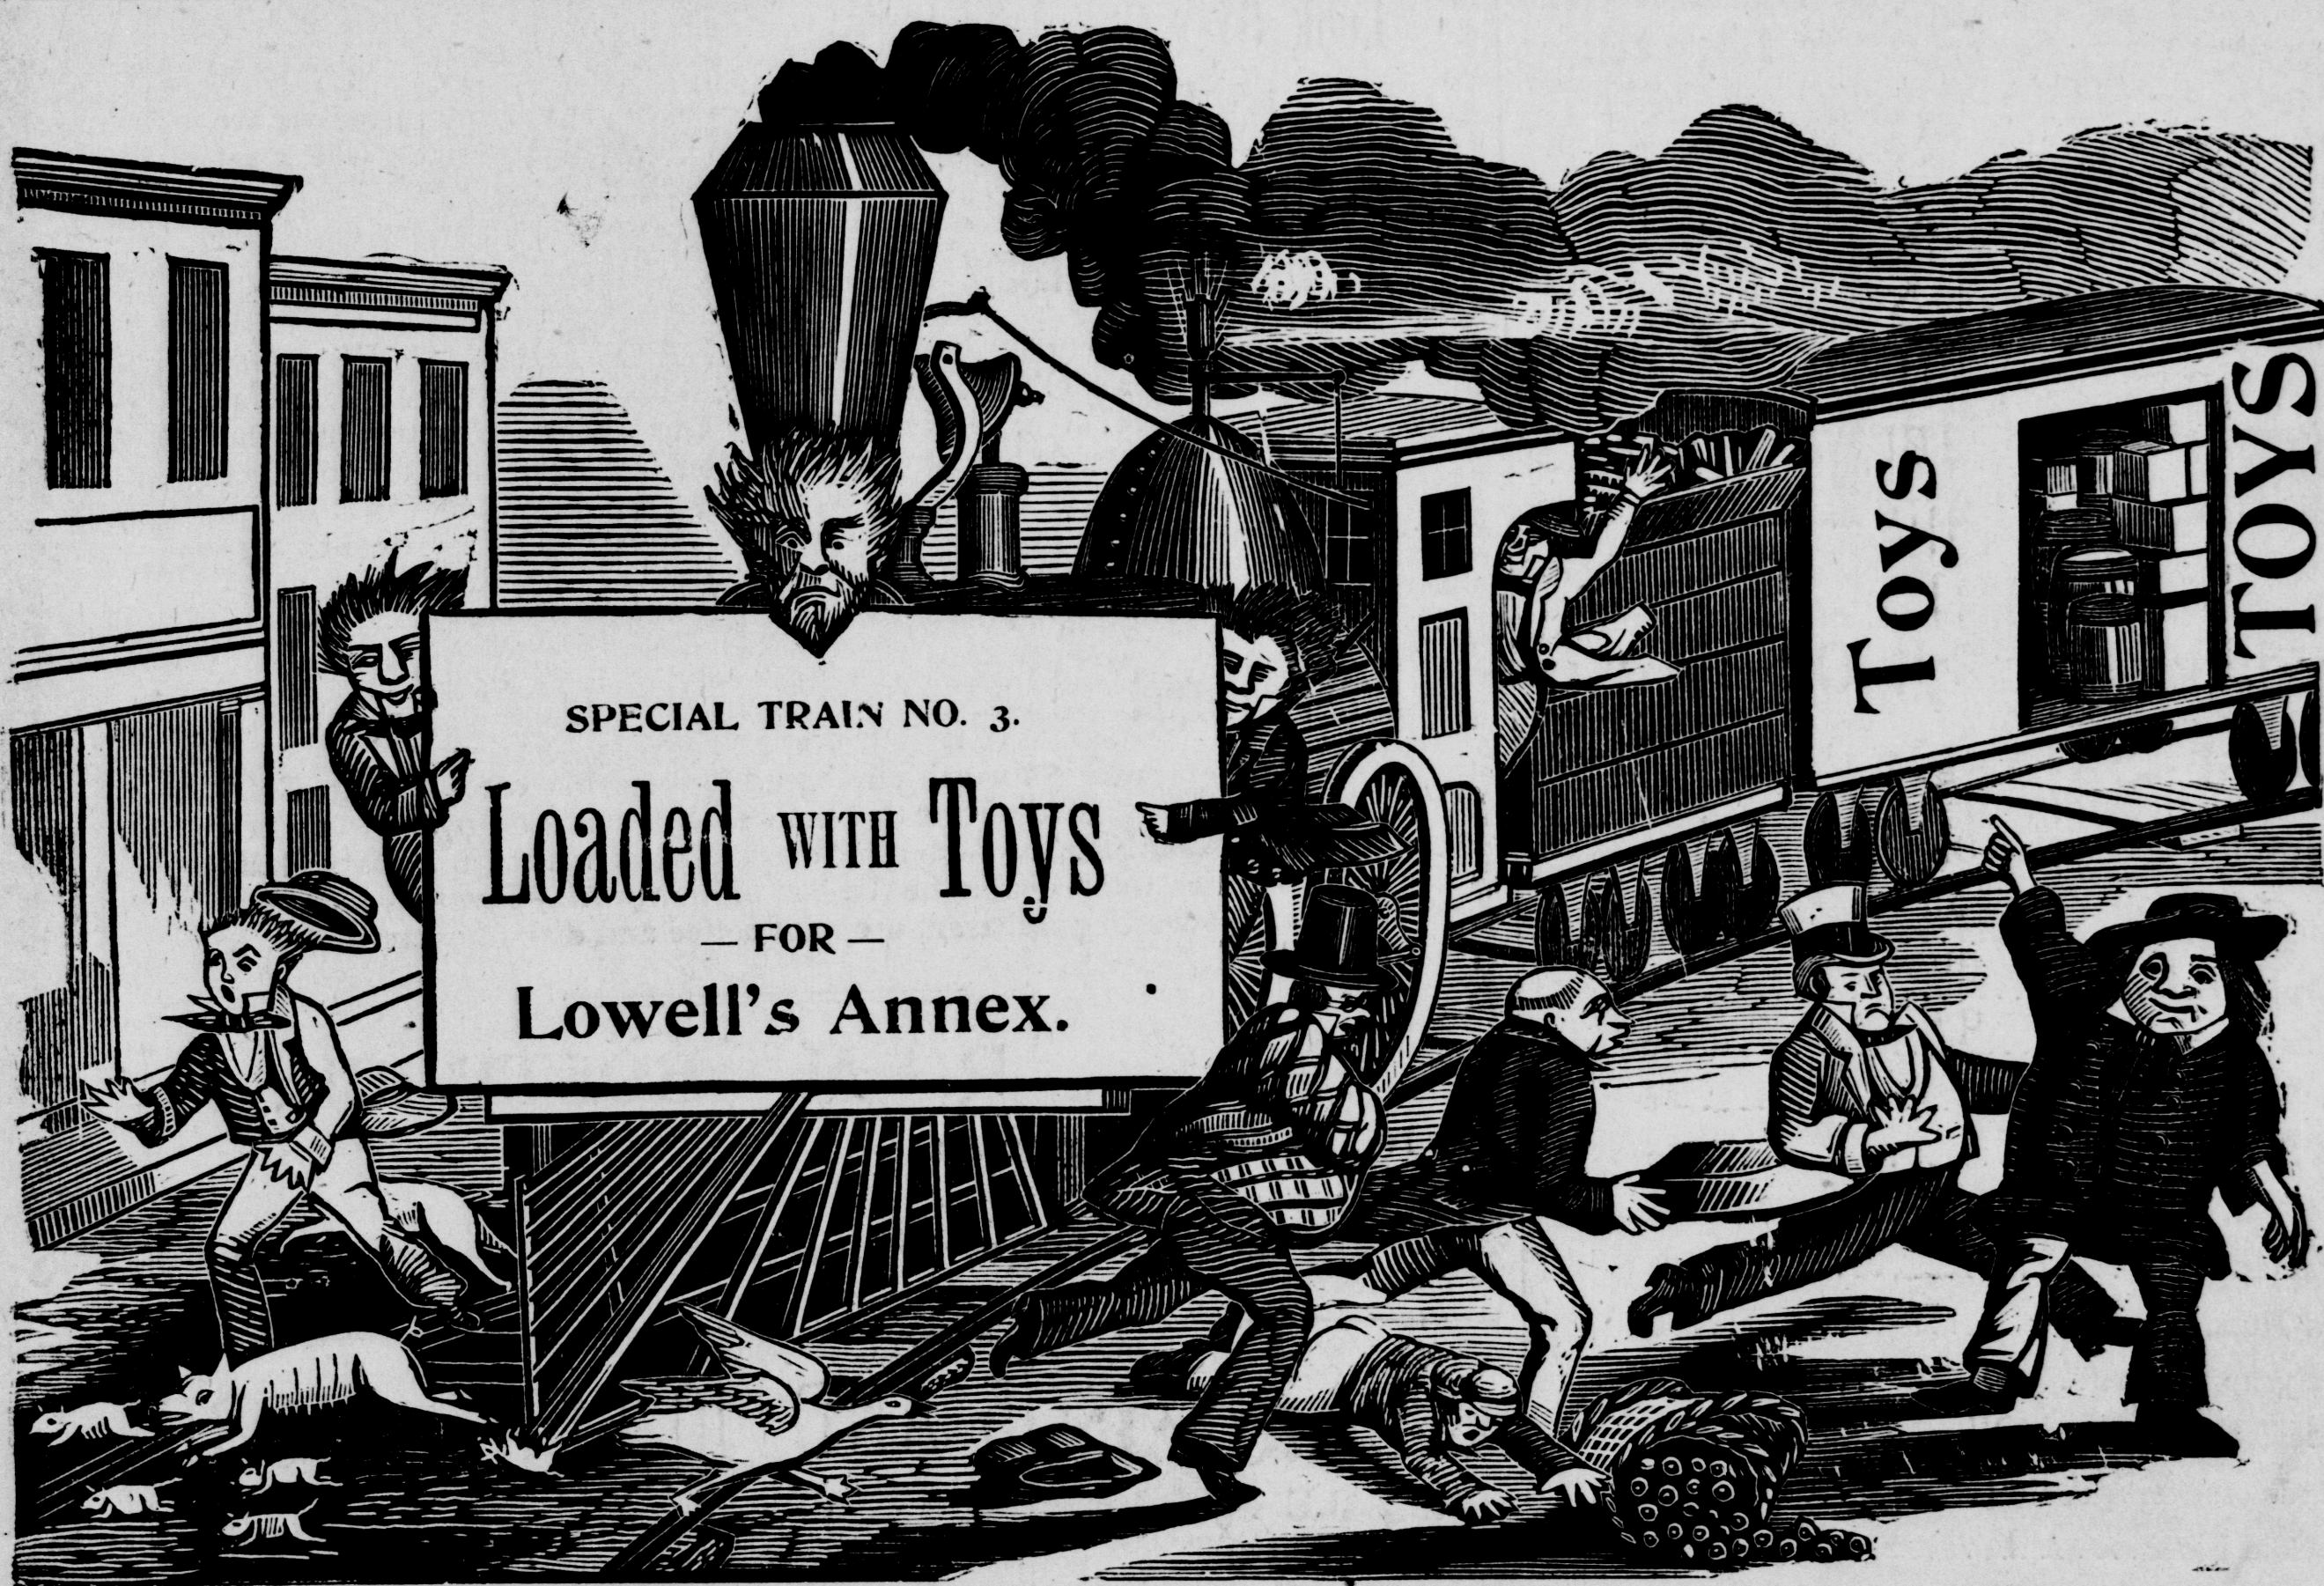

sent us by Browning, King & Co., of Minneapolis, made up by them to sell at \$18, \$20, \$22 and \$25 but we are letting them slide **at \$15.00.** They are the genuine kind too, made up with heavy cassimere linings, some with silk shoulders. As handsome a line of Ulsters as you ever saw. Cut right, made right. **Some are Black; some are Oxfords; some are Brown Plaids.** Just in the nick of time; just before Christmas; just when you need a high-collar Storm coat more than at any other time.

In connection with the above we have a line of **Christmas Goods** surpassed by none. A greater variety than any which we will give you the advantage of also. Elegant Silk Suspenders--plain colors, cardinal, blue-black or white. Also handsome embroidered kinds. A nobby line of Christmas Neckwear handsomely boxed. The new shades in four-in-hands, tecks, puffs, &c. Handsome handkerchief boxes, silk umbrellas, hosiery, gloves, &c. Gentlemen appreciate these things. Watch our ads closely for something new.
